Allowable Subject Matter

1. Claims 1-20 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter: a search of the prior art fails to explicitly teach or render as obvious the claimed features as a whole, and of particular note: the first and second inspection engines processing traffic from a switch, and determining desired or undesired traffic, which prevents the undesired traffic from passing thru and sends the desired traffic back to the switch for routing to the desired destination.

Drawings

3. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawings are informal, handwritten. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
